Perillustribus, Prænobilibus, Eruditis & Ingenuis Mansuetiorum Musarum Alumnis.

FAbulosa olìm & erronea antiquitas, immortalis percupida memoriæ rebus quibusvis, aut sæculorum malignitate aut temporum injuriâ, perituris. Numen aliquod præsens præfixit, quod eis immortalitatem inspiraret: Hinc bifrons anno Janus, Jupiter fulmini, ignibus Mulciber, Ceres segeti, Bacchus botris, Musis Apollo, litteris Musæ conciliabant memoriam sempiternam: & humaniorum litterarum Thesaurum percupidè mansuetioribus litterarum Nymphis consecrarem, quarum perenni dulcedine conspersus posteris omnibus esset commendatus. Sed terrent me fabulosa Musarum commenta, cui fata dederunt, post fabulas veritatem suspicere. Non quæram igitur mendaces Musas in Boëtia cum Hesiodo Ascreas: Non fugiam ad Ardali aram, ubi musas Ardalidas è somno excitem: Non adorabo cum Juvenali fontem Aonium, ut habeam propitias Aonidas: Non tandèm penetrabo antrum Corycium cum Ovidio, ut Nymphas Corycidas suspiciam: Adamat suas Heliconidas Cy-

thæron: Orpheus Libethridas, Thesbiades Horatius: Maro Mæonidas. Vos Perillustres, &c. perpetuam operi meo animam inspirate. Vobis ego Thesaurum meum palam propono, non eo more, quo Ollares Euclíones ollis argenti vel acervis auri incubantes miserè opes deperdunt; Nec tenacis more Darii, qui in aurea & gemmea pretiosas Homeri archetypas arcula peravarè per tot Regiones secum, & sibi soli perambulare jussit: Liberalior sum: Ecce prostat Novus Latino-Germanicus Thesaurus Carminibus, Epith. Phras. Poëticis, Historiis Insular. Reg. Urb. & abundans Homero-Hesiodo-Archilocho-Maronianus non ferratis in claustris, non tectus involucris, non armatis excubiis custoditus. Eligite plenâ volâ, ambabus manibus, patulis urnis, ditescite, abundate, refundite, favete.

Ita fovet.

Vobis addictissima juxtà ac obsequiosa

Vidua JOH. MARTINI SCHOENWETTERI.

III. *Syllaba brevis præcedens Enclyticam* quĕ *nullo signo notatur, cum reipsâ longa sit positione, licèt brevis sit, si ab Enclytica separetur, v. g.* pŏpŭlusque *loco* ĕ pŏpŭlŭs. *Quod si syllaba præcedens Enclyticam longa est, suo signo notatur; ut:* pŏpŭlōsquĕ *loco* ĕt pŏpŭlōs.

IV. *Vocali quæ præcedit in finale sequente vocali, nullam apposuimus notam, ut elisionem faciendam indicaremus.*

In Verſibus.

Verſus Hexameter & Pentameter facilè cognoſcuntur, ideoque prætermiſſis iis, aliorum nomina incluſimus parentheſi ()

In verſibus Hexametris, deeſt quandoq; principium, quod hac virgulâ indicatur: ——— *Quandoque in fine contrahuntur, ſeu mutilantur, quod hac nota* &c. *indicat.*

Cir Synonyma Epitheta & Phraſes.

Quæ eſt breviſſima & expeditiſſima amplificandi ratio.*

III. *In omnibus utere delectu, aſſume, quæ maximè ad rem faciunt, Epitheta & Synonyma; obſerva* Tropos, *&* Figuras, *&c.*
